KRISTINA RYABOY

UX Designer | User Research & Product Development
Human-Centered Systems | Accessibility | Cross-Functional Collaboration
Weymouth, MA | 857-526-6857 | KristinaRyaboy13@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

User-focused design professional with 10+ years of experience identifying friction points in enterprise applications and improving workflows through documentation, training, and cross-functional collaboration. Led the end-to-end design of Arcus, a mobile archery app now launching on app stores, from user research and persona development through wireframing, prototyping, usability testing, and visual design. Combines UX design methodology with a strong technical foundation in front-end development, AI-assisted coding, and systems analysis.

SKILLS

UX & Design: User Research · Usability Testing · User-Centered Design · Design Thinking · Wireframing · Prototyping · Visual Design · Interaction Design · Information Architecture · Personas & Journey Mapping · Accessibility (WCAG) · Mobile-First Design · Responsive Design

Tools & Technology: Figma · Adobe XD · HTML / CSS / JavaScript · GitHub · AI-Assisted Development (Claude) · SQL · ConnectWise · Azure Dashboards · Microsoft Office Suite

Professional: Cross-Functional Collaboration · Stakeholder Management · End-to-End Product Ownership · Workflow Optimization · Root Cause Analysis · Documentation & Training

PROJECTS

Arcus | *Lead UX Designer* 2025-2026

Mobile archery app launching on iOS and Android, in partnership with Ace Archers

- Led complete UX design lifecycle from user research through visual design and pre-release iteration for a live product shipping to app stores.
- Conducted competitive analysis and user research with local archery community to identify four key pain points driving feature priorities.
- Created detailed user personas and journey maps to guide information architecture and interaction design decisions.
- Designed five core user flows including session tracking, analytics dashboard, equipment management, mental training tools, and journal.
- Built wireframes, lo-fi prototypes, and high-fidelity mockups in Figma across the full product surface.
- Planned and facilitated moderated and unmoderated usability studies with five participants, synthesizing findings into actionable design improvements.
- Leveraged domain expertise as a USA Archery Level 3 Coach to inform authentic, user-centered design decisions.

Discover Movement Connect | *UX Designer & Developer* In Progress

Mobile coaching app for Discover Movement, a functional strength & pain management gym in Dedham, MA

- Conducting user research including interviews and surveys to define two primary personas (coach and client).
- Designing end-to-end user flows from paper wireframes through digital wireframes and lo-fi prototypes in Figma.
- Building front-end prototype using HTML, CSS, JavaScript, and AI-assisted development tools.
- Managing project independently from research through delivery, collaborating with gym owner as primary stakeholder.

UX Portfolio | *Designer & Front-End Developer* 2026

- Designed and built a responsive portfolio site using HTML, CSS, JavaScript, and AI-assisted development.

- Implemented accessible navigation, scroll-based interactions, and a cohesive dark-theme design system.

PROFESSIONAL EXPERIENCE

Granite Telecommunications, Quincy, MA

Senior IT Applications Support Analyst Jan 2016 - Oct 2025

- Managed 70-100 concurrent support requests, gaining deep insight into user pain points across internal enterprise applications.
- Identified recurring backend defect impacting customer billing access; collaborated cross-functionally to resolve root cause and restore usability.
- Reduced escalation rates by analyzing ticket trends and proactively addressing recurring workflow breakdowns.
- Developed clear documentation and training materials to improve system adoption and reduce user confusion.
- Facilitated weekly stakeholder meetings for high-priority initiatives, translating technical issues into user-impact language.

Voice Services Project Coordinator Nov 2014 - Jan 2016

- Managed projects through completion, ensuring accuracy and timely delivery.
- Trained and mentored team members to support professional development.

Senior Support Team Analyst Sep 2007 - Apr 2013

- Led a support team, overseeing escalations and high-priority issues.
- Trained and mentored peers to enhance team performance and foster development.

Blue Cross Blue Shield of Massachusetts, Boston, MA

Member Service Associate Feb 2014 - Nov 2014

- Guided members through complex digital tools, identifying usability challenges and improving navigation clarity.
- Balanced policy compliance with user experience considerations when resolving account issues.

EDUCATION

Southern New Hampshire University, Manchester, NH

Associate of Science in Information Technologies, Highest Honors, GPA: 4.0
Bachelor of Science in Information Technologies (Data Analytics), In Progress, GPA: 4.0

Google UX Design Professional Certificate, Coursera, 2026

Project-based program covering user-centered design, accessibility, wireframing, prototyping, and usability testing.

CERTIFICATIONS

USA Archery Coach, Level 3

- Design structured skill development programs tailored to individual learning styles.
- Provide iterative feedback based on performance observation and measurable improvement.
